Zidan Adhitiya

Admin & Data Analyst

About Me

I am a graduate of Sistem Informasi, Jaringan, & Aplikasi (SIJA) from SMK Bina Putera Nusantara. I have a strong interest in data handling and administrative work, with hands on experience in managing, cleaning, and analyzing structured data.
During my internship, I worked extensively with Microsoft Excel to process and organize customer data, supporting daily operational and business needs. I am detail oriented, organized, and capable of handling data accurately and efficiently.
In addition, I have basic experience using Python and SQL for data related tasks, along with an understanding of how data supports business decisions.

Experience

Data Analyst Intern (6 Months)
Astacode (Software House Startup)

- Analyzed customer data to support business decisions using Microsoft Excel
- Performed data cleaning, organization, and reporting for company datasets
- Assisted in managing and processing structured data efficiently
- Used Python and SQL for basic data analysis tasks
- Collaborated with team members on data-related and operational tasks
- Contributed to web development projects using Laravel & PHP
- Here is my intern certificate: **http://bit.ly/4tQWZ6z**

All My Project

I currently have various projects, such as a Healthcare AI, Middle man blockchain based platform for a newbie in Base ecosystem, Trading Community, etc.
